Our Vision

Our Mission

Our Strategic Priorities

Who Are We?

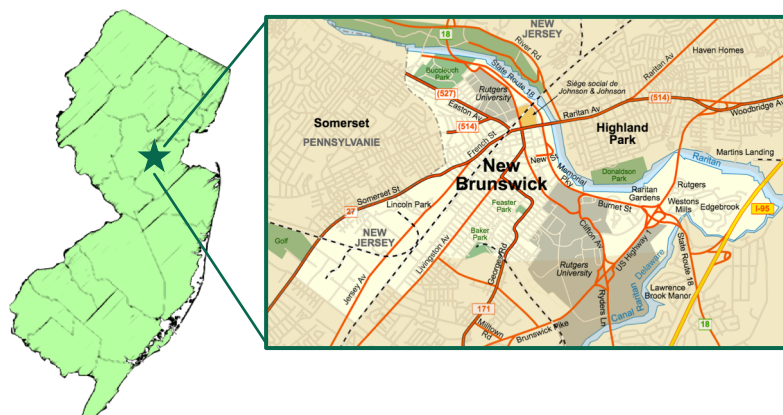

Our Role in the Community:

- Community of medical students, volunteer physicians, and community partners dedicated to providing patient-centered, quality primary care services
- Education and empowerment clients of Elijah's Promise Community Kitchen to lead healthier lives
- Community engagement through service-learning aimed at teaching the importance of continuity of care, teamwork, advocacy, innovation, and leadership
- We hope to continue serving as a free source of health care for our patients and as a place for our student-doctors to learn and give back to the local community

The Promise Clinic is an entirely student-run clinic that aims to provide free primary care to the clients of Elijah's Promise Community Kitchen in New Brunswick, NJ. Our patients are uninsured and many are afflicted with common chronic conditions such as hypertension and diabetes.

The Promise Clinic is built upon a continuity of care model. Each new patient is paired with a team of medical students from all levels of training. The assigned student-doctor team is responsible for the patient's care throughout their time in medical school and/or the patient's stay with the clinic, ensuring continuity. Under the direct supervision of Robert Wood Johnson Medical School clinical faculty who volunteer their time, medical students are committed to providing an encompassing range of care for our patients.

Through the Promise Clinic, the uninsured and under-served communities of New Brunswick, NJ, have access to primary health care that they could not otherwise receive. The clinic also serves as an opportunity for early clinical exposure for medical students in their pre-clinical years. The clinic allows for both patient and peer education, as students in their clinical years teach pre-clinical students the basics of the physical exam and disease management.

New Brunswick Community

- ❑ Home to over 56,000 people
- ❑ Almost 50% Spanish-speakers
- ❑ About \$42,000 median household income
- ❑ 7.6% unemployment rate
- ❑ 34% foreign-born residents
- ❑ 20.7% of residents under 65 without health insurance

Our Physician Preceptors

Family Medicine

- Dr. Joyce Afran
- Dr. Euton Laing
- Dr. Karen W. Lin
- Dr. Barbara Jo McGarry
- Dr. Marissa Stabile
- Dr. Frances Wu
- Dr. Fran Yu

Emergency Medicine

- Dr. Meigra Chin

Internal Medicine

- Dr. Catherine Chen
- Dr. Edith Sitrin
- Dr. Iris Udasin

Residents

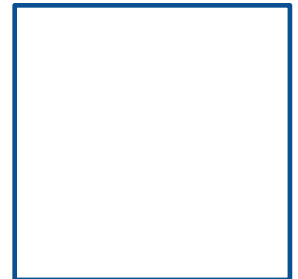

- Dr. Cresandra Corbin
- Dr. Patrick Ouzts
- Dr. Carolina Braga
- Dr. Ellexis Khan
- Dr. Joy Park
- Dr. Mitchell Kim
- Dr. Lindsay Volk

Faculty & Staff Advisors:

Dr. Eric Jahn, Senior Associate Dean for Community Health

Dr. Karen Lin, Assistant Dean for Global Health

Susan Giordano, Program Coordinator for Community Health

Services We Provide:

- ☐ Acute Care Management
- ☐ Screening & Preventative Services
- ☐ Basic Laboratory Work
- ☐ Chronic Care Management
- ☐ Specialty Care Referral
- ☐ Prescription Assistance
- ☐ Patient Navigation
- ☐ Women's Health
- ☐ Mental Health
- ☐ Social Work

A Message on Behalf of Our Physicians

HIPHOP- Promise Clinic is a student run free clinic led by devoted student directors, committed operation managers, creative subcommittees and compassionate student - doctors. We strive to increase the quality care for our patients and contribute to the mission of Rutgers Robert Wood Johnson Medical School - clinical care, outreach to community, education, and research.

We have achieved the following goals for 2017-18:

- **Efficiency** – set goal appointment time for 90 minutes on Thursday evenings to ensure continuity primary care for patients, and maximize learning opportunity for students.
- **Teamwork** – TeamSTEPPS initiative to improve quality and patient safety in medical education. Initiated at Promise Clinic and gained national reputation in medical education of American Medical Association and American Hospital Association.
- **Specialty Care Service** – expand services, more streamlining in charity care application
- **Data collection** – evaluate needs of community.
- **Quality of care** – improve the quality care of patients by continuing the HIPHOP-Promise Clinic Student Interpreter Elective; offers a mental health support group in Spanish in collaboration with the Depression and Bipolar Support Alliance of Middlesex County; provided flu vaccine clinics in partnership with Middlesex County Public Health Department & the Specialty Care committee.
- **Fundraising – long term sustainability**, established HIPHOP-Promise Clinic Endowment at Rutgers University Foundation, in addition to annual HIPHOP 5-K run, medical school wide campaign with Quarters 4 Meds (Q4M) Foundation
- **Social Determinants of Health**—students actively learned through quality scholarly projects, for example, VeggieRx and Health Passport, the details will be detailed in the report later. We established a new “Social Needs” Sub-committee to do a comprehensive assessment of social needs, connect patients to community resources for food, shelter, insurance and employment via collaboration with social work students.

We are planning the following for 2018 – 2019:

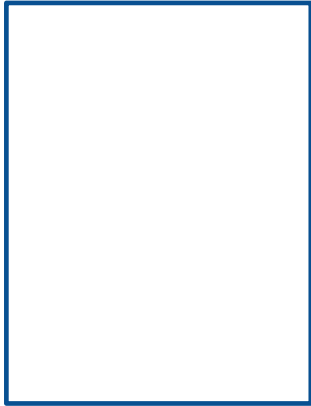

- “Planting the Seeds” 13th anniversary gala in Nov. 2018.
- Inaugural regional conference for three NJ Student -run free clinics in August 2018.
- Submission of abstracts for presentations at regional and national conferences of Society of Student Run free clinics in Jan and March, 2019.

We appreciate volunteer attending preceptors, family medicine and psychiatry residents, students of medicine, PharmD and Master of Social Work, a true interdisciplinary health care team.

Karen Wei-Ru Lin, MD, MS, FAAFP
Faculty Advisor, HIPHOP -Promise Clinic
Professor, Family Medicine and Community Health
Assistant Dean, Office of Global Health

A Message from Our HIPHOP Coordinator

It is going on 14 years that a free, all-inclusive primary care clinic began to serve an in- need population in our greater New Brunswick area. Rutgers Robert Wood Johnson Medical School Homeless & Indigent Population Health Outreach Project-Promise Clinic medical students and faculty continue to provide a comprehensive, student-run clinic that provides high quality primary care to the medically underserved clients of Elijah's Promise Community Kitchen. The partnership of the medical school community, Elijah's Promise, and our students under the direction of medical school faculty has built and maintained an environment patients can rely on for all their medical needs. Whether patients require well visits, management of chronic disease, or social-emotional consultation and/or peer support groups, our students are committed to meeting the needs of their patients.

In providing these services, our students incorporate a humanistic element in their training and their experiences at HIPHOP-Promise Clinic may impact their practice as future physicians. I am proud to assist our students, other committed health professional students, faculty, staff and community partners invested in carrying HIPHOP-Promise Clinic's mission. We collaboratively will continue our dedication and compassion to and for our communities!

- Susan Giordano, BA

Elijah's Promise Community Kitchen

Recipients of Elijah's Promise Community Kitchen Services are eligible, and actively recruited, for care at the Promise Clinic. Elijah's Promise is a dynamic organization that helps low-income individuals by providing nutritious meals, a broad range of social services, culinary arts training, and health screenings. Elijah's Promise has been a wonderful partner and advocate for the community. Students staff a booth at the community kitchen twice a week to provide blood pressure screenings. Our student doctors also provide health education for the members of the community through teaching sessions. Our partnership with Elijah's Promise enables community members to engage in health maintenance activities and to monitor their health weekly.

PROMISE CLINIC BY THE NUMBERS

Most Common In-House Labs:

1. HbA1c
2. Fingerstick Blood Glucose
3. Urinalysis

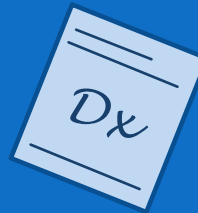

Most Common Medications:

1. Lisinopril
2. Metformin
3. Hydrochlorothiazide (HCTZ)
4. Amlodipine
5. Simvastatin

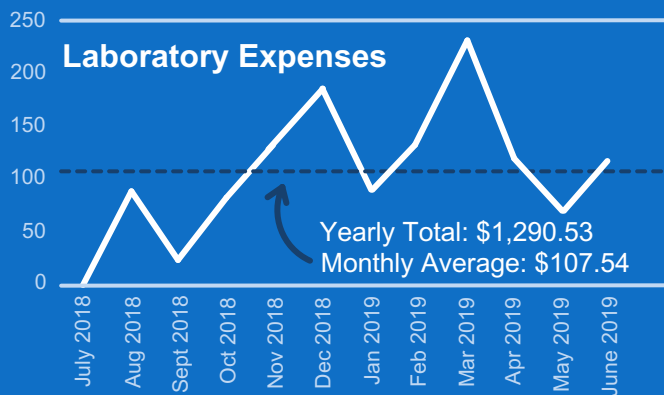

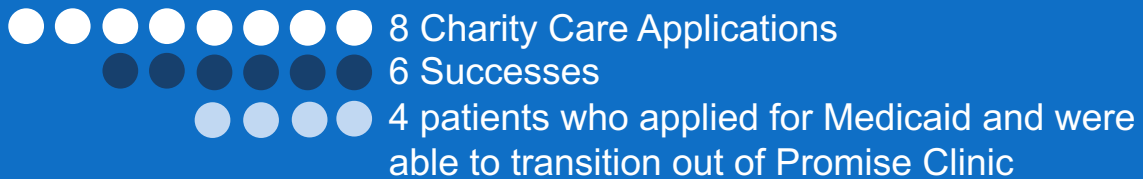

Most Common Send-Out Labs:

1. Lipid Panel
2. Complete Blood Count
3. Comprehensive Metabolic Panel

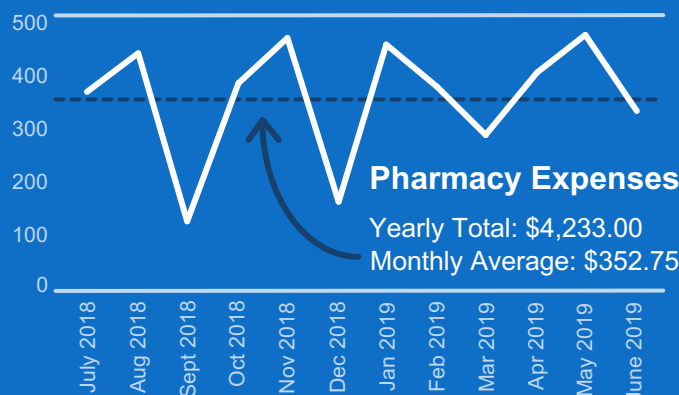

Most Frequent Diagnoses:

1. Hypertension
2. Hyperlipidemia
3. Joint/MSK Complaints
4. Type II Diabetes mellitus

Sources of Funding:

1. Donations
2. Community-based fundraisers
3. Dean's Office
4. Student Affairs

Promise Clinic covers the cost of pharmacy expenditures for uninsured clinic patients, so that patients may access medications at no cost to them.

\$100
Average cost of medication per patient (July 2018 – June 2019)

Highlights and Milestones

2018 Keeping the Promise Gala Planting Seeds for our Future

The **2018 Keeping the Promise Gala: Planting Seeds for our Future** took place on November 16, 2018 in New Brunswick, NJ. The event was organized by Rutgers RWJMS HIPHOP Promise Clinic in partnership with the Rutgers University Foundation. Over 200 guests, representing RWJMS students and faculty, Rutgers Ernest Mario School of Pharmacy, and family and friends were treated to desserts catered by Elijah's Promise and a schedule that included an awards ceremony for student-run initiatives and a keynote speech by a former Promise Clinic patient. The proceeds went toward the HIPHOP Promise Clinic Endowment.

Pictured: Guests and speakers enjoying the company and celebration at the gala.

Patient Satisfaction Survey

A patient satisfaction survey was given to 18 patients between March 2019 – May 2019 by M2 Emily Jarnagin.

100%

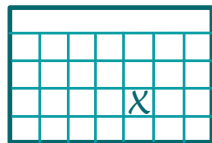

of Promise Clinic patients surveyed agree that:

The front desk staff are friendly and informative

The amount of time spent at Promise Clinic is acceptable

Promise Clinic does a good job reminding patients of their appointments

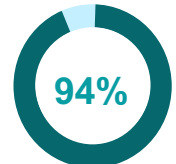

100% of patients feel that:

- ✓ Their team is a good fit
- ✓ They trust each team member
- ✓ They are treated with respect
- ✓ Their team educates them on their health conditions and available resources

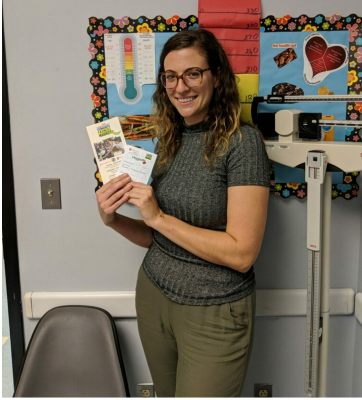

of patients understand the purpose of every medication, and when and how to take it

of patients trust Promise Clinic to deliver medications quickly and at low cost

Highlights and Milestones

Anna Levitt (M2) with Veggie Rx materials. This year, Community Outreach recruited 24 patients to Veggie Rx.

Becca Berger (M2) and MSW Denise Hernandez from Social Needs. Social Needs organized a training session on the Social Needs Assessment tool for student-doctors, and provided a 1st year Masters of Social Work internship.

Stephanie Oh (M3) teaching teammate Vanessa Ortiz (M1) physical exam skills. Education also created educational video tutorials to better prepare student-doctors for clinic practice.

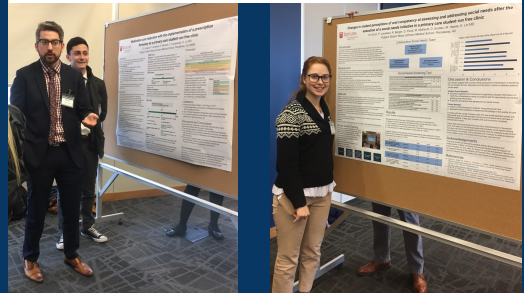

Runners at the Annual HIPHOP 5K Run in April 2019. The run supported HIPHOP programs and Promise Clinic.

Other Highlights:

- ✓ Community Outreach recruited 21 patients to the Health Passports Program.
- ✓ Lab initiated biannual EKG teaching sessions and presented a poster on STI testing at the New York Student Run Free Clinic (1/27/18).
- ✓ NJ Statewide Network for Cultural Competence (12/4/18)

CONFERENCE CORNER

Kansas City Society of Student Run Free Clinics Conference (8/25/18)

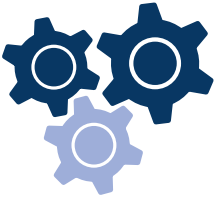

The 1st New Jersey Student-Run Free Clinic Conference (3/2/19 – 3/3/19)

Our Team

Operations:

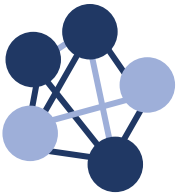

- Oversee all Promise Clinic activities as clinic directors, managers, schedulers, and first-year representatives
- Act as liasons between steering committees, student-doctors, preceptors, faculty advisors, and clinic staff
- Manage the flow of clinic weekly and collaborate to realize long-term goals for Promise Clinic

New Steering Committee!

Social Needs:

- Collaborate with the Rutgers School of Social Work and student-doctors to identify patients' social needs, including housing insecurity, food insecurity, and unmet educational needs
- Work with community partners to connect patients with local resources to alleviate these pressures with the goal of improving overall health and wellness

Community Outreach:

- Collaborate with Elijah's Promise Community Kitchen, other community-based partners, and other steering committees to facilitate patient recruitment and ensure patient follow-up
- Coordinate bi-weekly screening efforts at Elijah's Promise Community Kitchen and work to improve the health of the population by developing public health education materials and programs
- Organize clinic-wide interventions to target prevalent diseases by administering and analyzing the annual Patient Demographic Survey and encourage student-doctors to practice preventative medicine

Communications:

- Manage contact with all Promise Clinic patients, including Spanish-speaking patients
- Keep in touch with patients regarding appointments and outpatient care, and work closely with clinic schedulers to arrange new patient appointments and follow-up appointments
- Serve as interpreters for Spanish-speaking patients and recruit others to serve as interpreters through a Student Interpreter Program

Social Needs committee member Danielle Flood (M2) distributing hand-packed patient meals in clinic. Social Needs provided hot meals for every patient in clinic in partnership with Elijah's Promise Soup Kitchen.

Our Team

Specialty Care:

- Work to increase the breadth of specialized medical resources available to Promise Clinic patients and to streamline the process of obtaining care
- Provide student-doctor teams with specialists' contact information and assist with the Charity Care program onsite

Lab:

- Manage all lab testing during clinic hours, including blood draws, urine samples, finger stick glucose, and other lab procedures
- Collaborate with the Middlesex County Department of Health to provide mammography, pap smear, and colon cancer screening for patients through the CEED (Cancer Education and Early Detection) Program

Pharmacy:

- Provide patients with prescriptions and vouchers to obtain medication from a local pharmacy at no cost to the patient
- Provide onsite assistance to student-doctor teams in reviewing patient medications for potential drug interactions and side effects
- Guide teams in getting their patients into appropriate Patient Assistance Programs (PAPs)

Don Langan (M3) with Pharmacy PAP materials. Pharmacy introduced a new PAP tracking system for dispensation to patients this year.

Quality Improvement:

- Identify and target areas where patient safety at the greatest risk, which includes overall clinic administration and specific team practices
- Improve the efficiency and production of Promise Clinic by using data from student-doctor visits to implement Best Practices
- Serve as a central source of information for many Promise Clinic projects

Education:

- Make the Promise Clinic a model learning experience for student-doctors
- Maintain student attendance records for patient appointments and teaching sessions
- Act as a liaison between the steering committees and medical school staff regarding student completion of requirements

Finance & Fundraising:

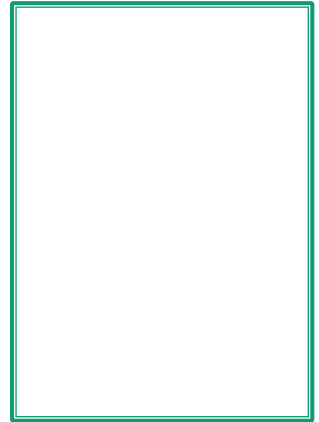

- Manage the clinic budget and monitor fundraising income and expenses
- Coordinate fundraising efforts within the community with the goal to reach financial sustainability and continue providing patients with free healthcare

Reflections from a Student-Doctor

1. Can you tell me about the interpreter program?

Absolutely! The interpreter program began in 2014, the Spring of my first year as a medical student. The Communication team members are the true all-stars as they have been integral in expanding the program to allow us to meet patient demand. We are fortunate to work in an environment which is receptive to new ideas and committed to providing patients with the best care possible.

The program allows Spanish-speaking RWJMS medical students the opportunity to serve as Spanish to English interpreters in the clinic setting for student-doctor teams during a patient encounter. Interested students must attend a training session (organized by Hank Dallman and the Communications Steering Committee) and pass both a written and practical examination.

2. What are the main goals of this program?

Our program goal aligns with the overarching mission of the Promise Clinic which includes providing “*patient-centered, quality, primary care services*” to our local community members. The majority of the population Promise Clinic serves is predominately Spanish speaking. Existing studies support that interpreters improve care not only by decreasing communication errors and increasing patient comprehension but also by equalizing health care utilization, improving clinical outcomes, and increasing patient satisfaction.

At Promise Clinic, interpreters assist in breaking down language barriers to optimize information exchange in the clinic setting for student doctor teams. Additionally, interpreters are trained to recognize nuanced cultural differences and respond appropriately.

Future Directions

- ☐ **Expand patient outreach**
- ☐ **Address social determinants of health**
- ☐ **Develop sustainable funding strategies**
- ☐ **Improve patient care**
- ☐ **Improve patient care**

Thank You

A very special thank you to our kind donors!

Promise Clinic relies on donations from donors to sustain our ability to help provide medical care to our patients. We truly would not be the same without the generosity of our wonderful donors.
